

The Bloody Long Walk

Sunday 15 November 2026

Dear Stakeholder,

The Bloody Long Walk is coming to Sydney's Eastern Suburbs! The walk from Pioneer Park, Malabar to Hickson Road Reserve, The Rocks, will be the ninth and final event in our 2026 series. Now that's pretty exciting!

Importantly, it's for a *bloody* great cause!

The Bloody Long Walk is owned and operated by the Mito Foundation, a not-for-profit organisation that funds research into mitochondrial disease (mito) while providing support services and resources for impacted families.

Mito is a debilitating genetic disorder that robs the body's cells of energy, causing multiple organ dysfunction or failure and potentially death. There are no cures.

At least one Australian child born each week will develop a severe or life-threatening form of mitochondrial disease (mito).

With those numbers, there will be families in this area impacted by mito in some way. We hope this event shows them how much their local community cares.

Event overview:

The event will commence at Pioneer Park, Malabar, between 6:30 am and 8:00 am on Sunday 15 November, with low-level amplified sound from 6:00 am.

Approximately 950 participants will commence the walk in allocated waves, allowing shared pathways to remain open to the general public. The finish line at Hickson Road Reserve, The Rocks, will operate from 8:45 am to 4:15 pm. No roads will be closed.

We are providing this notification to ensure local businesses, authorities and other stakeholders are aware of the event and associated activities. Our event team will endeavour to minimise disruption to surrounding businesses, residents and public spaces.

Find out more and get involved!

For more information or to join us on The Bloody Long Walk, please contact us on 02 5700 0303 or bloodylongwalk@mito.org.au. You can find out more about Mito Foundation at mito.org.au.

Thank you in advance for your patience and support!

The Bloody Long Walk Event Team.
